16 AUGUSTUS 2017

**Hon. Michelle Hopkins Roberts MLA BA, DipEd,**  
Minister.Roberts@dpc.wa.gov.au

Hon. Michelle Hopkins Roberts MLA BA, DipEd,

I write to you as President of the European Airsoft Association (EAA), as i am assisting the Western Australian Airsoft Club, who you have an appointment with on the 25th of August 2017.

Their efforts to make our beloved Airsoftsport possible in Western Australia, is something the EAA and its members fully support.

We have had similar situations in some countries here in Europe, where our young sport was unknown with legislators and therefore fell between two stools of weapon laws.

This made participating in (international) competition extremely difficult for members, but with common sense and perseverance in good cooperation with national governments, the Airsoftsport is now possible in all of Europe.

As we want to expand the international competition to other parts of the world, the EAA would appreciate it if you are able to assist our colleagues from Western Australia, to regulate the sport.

The club`s committee members, Laurentiu and Mark, are good of hearth and are undertaking this mission in the best interests of the Airsoftsport, without financial support from companies or professional commercially backed lobbyists.

If you have any additional questions, please feel free to contact me.

Kind regards,

Joachim J.W.G. Dekkers

President
